

Prof. Dr. Amitava Gupta is a professor in the Department of Power Engineering and the Director of the School of Nuclear Studies and Applications (SNSA) at Jadavpur University, Kolkata, India. A graduate in electrical engineering from Jadavpur University, Prof. Gupta earned his MTech from the Indian Institute of Technology, Kanpur and his PhD from Jadavpur University. He has served as an engineer in the Control and Instrumentation Division of the Nuclear Power Corporation of India Ltd. and as a member of the High Performance Computing group of the Centre for Development of Advanced Computing, Bangalore, before switching to academics. A recipient of German Academic Exchange Service (DAAD) Fellowship (Uni-Bremen, 1999), he also served as a *Gastwissenschaftler* (visiting scientist) at Technische Universität München (2002-2003), as a DAAD *Gastdozent* (visiting professor) at the University of Rostock (2006), and again at the Technische Universität München (2009-2010). He is presently a Research Ambassador of the DAAD in India. His research interests include distributed simulation, distributed real-time systems, networked control systems, and control and instrumentation related to nuclear reactors and detection systems and he has several well cited journal and conference papers, book and book-chapters as well as research projects in these areas.
